GlobeSpotter for ArcGIS Desktop

Installation Manual
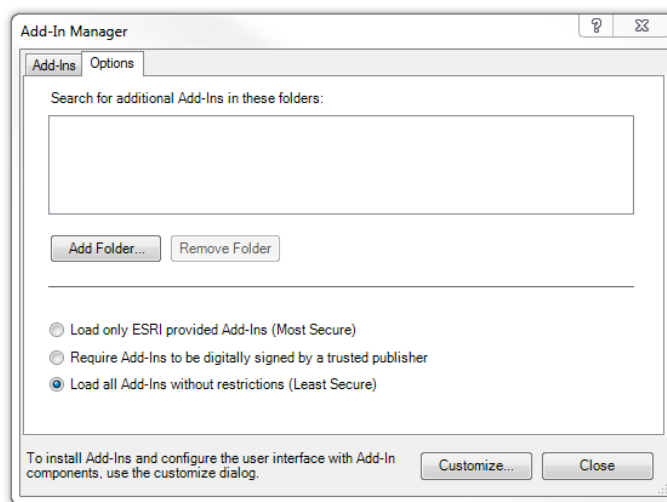

1. Installation

To install GlobeSpotter for ArcGIS Desktop, please perform the following steps:

1) Check if Adobe Flash Player is installed on your computer. If you do not already have it, please download and install it first via http://get.adobe.com/flashplayer/.

2) GlobeSpotter for ArcGIS Desktop can be installed from a disk or network location:

   I. Copy the Add-In file to a (local) disk or network location.

   II. Start ArcMap.

   III. Select menu: *Customize ► Add-In Manager* and select the *Options* tab.
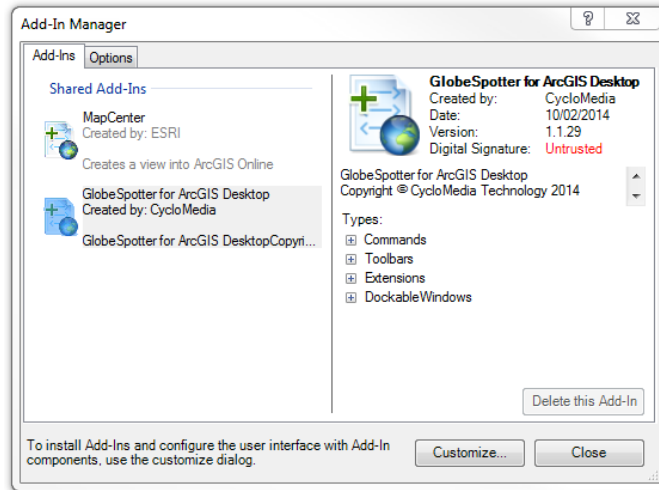

Add-In Manager, Options tab.

   IV. Click *<Add Folder...>*. Browse to the folder were the Add-In file is located and click *<OK>*.

*Browse to the folder where the Add-In file is located.*

   V. Close the Add-In Manager and restart ArcMap.

   VI. Select menu: *Customize ► Add-In Manager*.
